EN – GENERAL INFORMATION

Declaration of Conformity
Hereby, Trust International B.V. declares that this product complies with the essential requirements and other relevant provisions of Directive 2014/53/EU. The declaration of conformity may be consulted at www.trust.com/product/compliance.

Safety instructions
- Do not use the product if the cable or connector is damaged. Refer to a qualified technician if the product does not function properly.
- Do not attempt to disassemble the product. Contact a qualified technician if you need a repair or information regarding repairs.
- Do not expose the product to extreme temperatures (between 0 and 40 degrees Celsius).
- Do not expose the product to moisture or spillage, unless it is intended for use in a wet environment. Do not insert foreign objects into the product.
- Use only the cable provided with the product.
- Do not bend or twist the cable too much.
- Do not place the cable near heat sources or sharp edges.
- Do not place the cable under pressure. Avoid pinching and crushing.
- Do not pull on the cable to disconnect it from the socket. Instead, grasp the plug and pull it out.
- Do not use the product during a thunderstorm.
- Do not use the product in a medical environment.
- Do not use the product in explosive environments.
- Do not use the product in environments with a suitable charge.
- Do not use the product in the vicinity of a pacemaker, nearer than 15 cm.
- Do not use the product in the vicinity of induction cookers.
- Keep out of the reach of children and pets.
- Keep the product away from heat and direct sunlight.
- Keep the product away from water and other liquids.
- Keep the product away from sharp objects.
- Do not place the product on flammable surfaces.
- Do not place the product on unstable surfaces.
- Do not place the product on surfaces that are not level.
- Do not place the product on surfaces that are not dry.
- Do not place the product on surfaces that are not clean.
- Do not place the product on surfaces that are not made of wood or other suitable material.
- Do not place the product on surfaces that are not made of a material that is not suitable for the product

Αντιαιμοπετάλια και παράγοντες αναστολής της πηξίνης
Ασπιρίνη σε συνδυασμό με παρασκευάσματα μη ελεγχόμενης κατάλληλης αποδεσμευτικής δράσης διπυριδαμόλη (ή παρόμοιες δραστικές ουσίες).
Δεν συνιστάται η συγχορήγηση με παρασκευάσματα ασπιρίνης.

Αντιπηκτικά
Δεν συνιστάται η συγχορήγηση με παρασκευάσματα ασπιρίνης.
Η ασπιρίνη μειώνει τη δράση των αντιπηκτικών ανταγωνιστών της βιταμίνης Κ. Η ασπιρίνη μπορεί επιπλέον να αυξάνει τον κίνδυνο αιμορραγίας λόγω αναστολής της λειτουργίας των αιμοπεταλίων. Η αυξημένη αιμορραγία μπορεί κατά κανόνα να αναμένεται σε ασθενείς οι οποίοι λαμβάνουν ταυτόχρονα αντιπηκτικά φάρμακα. Η ταυτόχρονη χορήγηση ασπιρίνης σε ασθενείς οι οποίοι λαμβάνουν αντιπηκτικά φάρμακα θα πρέπει κατά κανόνα να αποφεύγεται.
