Easy data transfer

All SD and micro SD cards can be connected to your tablet or smartphone. This enables easy data transferring for all your photos, videos or other files. Very convenient when sharing your holiday photos taken with your camera on Facebook via your smartphone. Or, in case you would like to backup all your smartphone's data to a memory stick.

Connect your mouse, keyboard or USB stick

Use the USB connection on the connection kit to connect USB sticks for data transfer, or to connect your mouse, gamepad or keyboard. Very useful when browsing the internet, playing games or typing e-mails.
