Designed for PS4

The GXT 304 is especially designed for the Playstation 4. Plug the headset directly into the audio-output of your PS4 controller to enable in-game chatting. In addition to this, the cable length has been taken into account in the design of the headset. It has a perfect length from the controller to the headset whereby it does not disturb while gaming.

In-game chat

The GXT 304 gaming headset offers chatting possibilities while online gaming. This offers great advantages over competitors because you can easily consult with your teammates. Use the headset in online shooters to discuss strategies during a battle or MMO games to exchange information.
