## Marketing

<b>Extended retailer text</b>	High-end audio quality, powerful sound, Digital & Analog input and an Cool gaming design: the Digital speaker is the ultimate speaker set for all your gaming platforms: PS4/PS3, Xbox360/One, PC and tablet.
-------------------------------	---

#### Digital and analog input

Thanks to the digital audio input the speaker set is compatible with the latest gaming platforms like PlayStation 4 and Xbox one but also with PS3, Xbox360 and PC. Simply connect the included optical cable to your game console and enjoy crystal-clear digital sound quality. The digital sound is free from any distortion or background noises and produces the highest possible sound quality. Next to the digital input the speaker set also has an analog input for connecting to gaming pc/laptop, tablet and smartphone.

#### Wireless remote

Also included is a wireless remote control with handy functions; easily control your volume, bass level and switch the speaker on and off without leaving your comfortable couch. With this remote you can easily switch between digital and analog inputs. This makes it possible to quickly switch between a Game console and gaming PC/Laptop.

#### Ultimate Sound and Bass

Using the 120 Watts peak power, the Tytan 2.1 Digital Speaker Set is able to build a wall of sound. This speaker set features an XL wooden subwoofer, with a 7-inch speaker to produce a powerful bass you can feel. The satellite speakers produce optimal sound quality in the mid and high tones. You can easily control the bass level separately, allowing you to adjust the sound to your desires.

The high-quality digital sound produced makes this speaker set ideal for playing games like Watchdogs, Call of Duty and Fifa.

#### Cool gaming design

The wooden subwoofer features an tough metal grill and a classy matt black ring to complete the design. The satellite speakers feature a matt finish, making sure this speaker set fits perfectly in your gaming setup.

#### Smart Power Management

To save energy, the speaker automatically switches to standby mode when not used for approximately one hour. Once your device starts to play sound again, the speaker automatically turns back on. The smart power management function can also be switched on or off on the side of the subwoofer.
