Package contents	- Charging dock - Power adapter - User guide - Gaming sticker

Marketing

Extended retailer text	Never keep your Play Station 4 on again for charging your controllers. With the Trust GXT 243 Duo you can easily charge two controllers at once.
	Charging The PS4 DualShock controllers are advanced gamepads with a bunch of new features whereby they regularly need to be charged. Usually this happens by using the USB ports on your PS4. However, this blocks your USB ports for any other devices and in addition, your Play Station 4 needs to be in standby the whole time.
	With the Trust GXT 243 Charging Dock this is a thing of the past. Trust has developed a docking station which enables easy charging of two Play Station 4 controllers at once. All you have to do is to plug the included power adapter to the wall socket. Thus, your Play Station 4 never has to be kept in standby mode anymore for charging and so consumes less energy.

Duo Charging Dock

The Duo Charging Dock works as a space saving solution to store your Play Station 4 controllers. This way your controllers never unnecessarily lie around on your table. In the meantime, they are getting charged for the next gaming session.

The Trust Charging Dock has a stylish and slim design which makes it a perfect companion for your PlayStation 4. Thus, it fits to any interior - wherever you have your PS4.
