### Marketing

<b>Extended retailer text</b>	Get rid of the boundaries of your current remote control. With the Trust Wireless TV Keyboard and Air Mouse you can easily type, browse the web and navigate your Smart TV or Game Console. Experience the ultimate functionality of your devices with this compact and light-weight keyboard.
-------------------------------	--

### Smart TV, Game Consoles and Media Players

The living room gets more and more populated by smart devices with extended functions like browsing the internet, using apps or social networking. Normal remotes often are not suitable for these functions and cannot deliver the best experience. With the Trust Wireless TV Keyboard and Air Mouse you can fully benefit from the functions of your smart devices.

### Keyboard & Air mouse

If you have ever tried to type a website address or other text with your remote control you probably had to select each letter one by one. With the Trust Wireless TV Keyboard you have access to all letters and characters at once, so you can easily type with your thumbs.

By moving the Smart TV Keyboard in the air you can control your mouse arrow in an intuitive way. Directly select links on a website, navigate your Smart TV interface or use apps with the Air Mouse.

### Design & Technology

The light and ergonomic design offers functionality and comfort within the palm of your hand. The buttons have a precise and comfortable keystroke making the typing enjoyable. Thanks to its advanced technology you don't need to point the Air Mouse directly to the TV for a precise control.
