Marketing

Extended retailer text	High end audio quality, powerful sound, wired and wireless connectivity options, and an eye-catching design: the 2.1 Speaker Set with Bluetooth is the ultimate speaker set for your smartphone, tablet, laptop, PC or TV! Ultimate Sound & Bass

Using the 120 Watts peak power, the 2.1 Speaker Set with Bluetooth is able to build a wall of sound! This speaker set features an XL wooden subwoofer, with a 7 inch speaker to produce a powerful bass you can feel. The satellite speakers produce optimal sound quality in the mid and high tones. At the side of the subwoofer, you can easily regulate the volume and bass level separately, allowing you to adjust the sound perfectly to your desires.

The high quality sound this speaker set produces, makes this speaker set perfect for use at listening to music, watching movies or playing games.

Eye-catching Design

The wooden subwoofer features an eye-catching, tough metal grill and a classy matt black ring to complete the design. The satellite speakers feature a glossy finish, making sure this speaker set is a classy addition to every room of your house.

Choose your connection: Bluetooth or wired

This speaker features built-in Bluetooth, making it easy to connect wirelessly to your laptop, smartphone or tablet. In addition, it is of course possible to connect via 3.5mm cable to your PC, laptop, tablet, smartphone or TV.

Easy to use

The control panel is placed on the side of the subwoofer and has two controls to adjust bass and the volume to your desires. There are two buttons as well to easily switch between Bluetooth and cable mode, and to put the speaker into Bluetooth pair mode.

Next to the control panel, the Tytan features a wired remote control which you can place at your desk. Using this remote control you can easily control the volume. On top of that, the wired remote features extra connections to connect your headset and to connect any music playing device like your MP3 player, smartphone or tablet.

Smart Power Management

To save energy, the speaker automatically switches to standby mode when not used for approximately one hour. Once your device starts to play music again, the speaker automatically turns back on. The smart power management function can also be switched on or off on the side of the subwoofer.
