## Marketing

<b>Extended retailer text</b>	Get the best out of your Samsung Smart TV, by using the Trust Wireless Samsung Smart TV Keyboard with Touchpad. Easily type, surf the web and navigate through apps on your Samsung Smart TV.
-------------------------------	---

Get in control  
Searching for a YouTube video, posting a Facebook message or surfing to your favourite website on your Samsung Smart TV has never been this easy. Forget about selecting each letter separately using your remote control, simply type everything you want easily and fast using the keyboard.

Thanks to the built-in touchpad you can easily browse through the Smart Hub Panel and apps with just the tip of your finger. Like on a laptop, a cursor will appear on the screen allowing you to smoothly open every app or select every option within a click.

Just the right size  
The Trust Samsung Smart TV keyboard is lightweight and features 10m wireless range. It has just the right size: compact enough to sit wherever you like, large enough to allow comfortable and precise typing.

Replacement of your remote  
In contrast to other keyboards, the Trust Samsung Smart TV keyboard features 16 specific Samsung buttons. Change the channel, control the volume, start Samsung Smart Hub: all global remote functions, except for turning your TV on or off, are available at this keyboard. Once your TV is on, you do not need your original Samsung remote at all!

Trust Samsung Smart TV Keyboard with Touchpad: full control of your smart TV at your fingertips!
