Extended retailer text

Having a BBQ in your backyard, want to speech at your company's party or do you want to play music at the sidelines of a sporting event? The Trust Urban Fiësta Pro Wireless speaker is the ideal solution! The Fiësta Pro produces powerful sound, has an internal battery that lasts your entire party, is easy to carry and can be used with your tablet, smartphone or musical instrument.

Portable

Thanks to two wheels and a retractable handle the Fiësta Pro Wireless Speaker is easy to carry around. In addition, the Fiësta Pro easily can be picked up by the two handles on the side. The speaker is solidly built so you can transport it easily to any place without being worried about damaging it.

Internal battery

The Fiësta Pro has an internal battery which lasts from 8 to 60 hours depending on the volume. The battery is easily recharged by the included power cable. If your battery runs out during a party, you can continue to use the speaker by connecting it to a power socket.

Charge your phone or tablet

This speaker will last longer than any tablet or smartphone, but this will not stop you from listening! The solution to an empty battery is already build in: the Fiësta Pro is featured with a USB port that allows you to charge your tablet or smartphone. Simply plug the included cable from your tablet or smartphone in the speaker and you are always provided with sufficient power. Once connected you can easily place your tablet or smartphone in the holder on top of the speaker and keep listening.

Sound

With 60 watts output power the Fiësta Pro offers more than enough power to provide every party or area with full sound and powerful bass. Unlike most speakers, the Fiësta Pro offers the possibility to completely set up the sound using the regulators for bass, mid and treble tones. Whether you want to use the speaker indoors or outdoors for music or a speech, the Fiësta Pro is ideal for any situation. The volume of the Fiësta Pro is adjustable through the master volume or for each channel. So you can put your microphone volume up or down comparing to the music.

Connections

Connect your smartphone, tablet, laptop or MP3 player easily through bluetooth or by using the included 3.5mm cable. The Fiësta Pro Wireless Speaker also has a connector for the supplied microphone, and a jack for a microphone or musical instrument like your guitar or keyboard.

In need of Ultimate Power? Then connect multiple Fiësta's to each other!

Versatile, mobile and powerful: the Fiësta Pro Wireless Speaker is the ultimate sound solution for every situation.
