Marketing

Extended retailer text	<p>Don't have an Ethernet connection on your Ultrabook or MacBook? The Trust Oila 3 Ports USB 3.0 Hub with Ethernet Converter offers you exactly this, plus adds two additional USB 3.0 ports. This ensures a stable and fast connection for both your USB devices and internet.</p> <p>Goodbye slow Wi-Fi</p>
-------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

When working in places where Wi-Fi is slow or instable, a wired connection is a relief. The Trust Oila Hub offers an Ethernet port: simply plug the Ethernet cable into the hub, connect the hub to a USB port of your laptop, and a stable internet connection is realised.

Docking station

The combination of USB ports and an Ethernet connection in one hub, allows you to create a docking station at your working place, wherever that might be. Simply connect all your regular peripherals like a mouse, keyboard, external hard drive and an internet cable to the hub, and you're good to go.

From now on, you can connect all your devices at once, simply by connecting the USB cable of the hub to your laptop. On top of that, the USB 3.0 feature ensures high speed data transfers both to your USB devices and on the internet.

*Please make sure to connect the hub to a USB 3.0 port

Specifications

Number of USB ports	3
Driver needed	false
Cable length main cable	20 cm
USB version	3.1 gen 1
Ethernet port	true
Ethernet port speed	100 Mbps
Storable cable	false
Designed for gaming	false
Protections	short-circuit
Power source	USB

USB port A types	3
Power adapter included	false
Compatible Software Platforms	Windows Chrome OS MacOS
