Marketing

Extended retailer text	Communicate clearly online with the Trust Flex USB Microphone for PC and laptop. With this high-performance microphone, you can talk to your friends and family all over the world as if you're in the same room.
------------------------	---

Connect clearly

Simply plug in the USB connector and you will be instantly in contact via Skype. You can start your own voice recordings or talk to your teammates in your favourite game; the possibilities are all yours. You won't have to repeat your commands endlessly in voice-controlled applications, because of the microphone's clear sound: let yourself be heard.

Be flexible

The USB microphone features a flexible and adjustable gooseneck, so you can always place it in the perfect position. Because of the weighted desk stand combined with the rubber feet, it will always stand strong. You don't have to worry about moving around and knocking over your microphone. It even reduces contact noise for that perfect sound.

Talking mode

With the mute function on the foot of the microphone, you can easily mute the microphone with a single push of a button. Easily switch from talking to your online friends to talking privately with people in the room. The indicator light makes sure you always know who can hear you.

Specifications

Total weight	298 g
Height of main product (in mm)	98 mm
Width of main product (in mm)	120 mm
