|------------------------|---|
| Extended retailer text | Looking for a wireless speaker to complete your party? With the Fiësta Disco you don't only have a speaker, it brings you an awesome party light too. It is easy to take with you because of its compact size. Bring it to a sports event or a friend's home and you're ready to get the party started! |
|------------------------|---|

Disco-on-the-go

The Fiësta disco is more than just a party speaker. It's a complete disco to take along with you anywhere you like! The disco light on top of the speaker offers you a room filling, multi-colour led light show. The built in beat detection makes your disco light respond to the music you're playing, to have your lights match your style. The lights can be set in four different settings: off / random colour / random coloured light matching the beat of the music / white light matching the beat of the music.

Great sound

With its great 20W sound, the compact Fiësta Disco speaker brings you more than enough volume to get your party started. Surprise all your guests with the sound this compact speaker brings you.

Works with any audio device

Pair your phone or tablet to the speaker wirelessly using the built-in Bluetooth technology to play your music. It is also possible to plug your smartphone, tablet, MP3-player or computer into the speaker using the 3.5mm aux jack. This way, anyone can connect his or her device to the speaker and share his or her music.

Lasts as long as your party

The speaker can be used plugged into a wall socket, but also has a built-in rechargeable battery. The battery provides you between 8 and 15 hours of music, depending on the volume of the music and the light show.
