### Marketing

<b>Extended retailer text</b>	<p>Looking for a microphone that can bring you clear digital audio for your vlogs? Do you feel like singing all day and need a microphone that can record your voice perfectly? The Radi USB microphone with dual connection is exactly what you need because it works with any PC and/or laptop!</p> <p>Dual connection</p> <p>The Radi USB Microphone works with two different connections. The classic 3.5mm connection can be used for</p>
-------------------------------	--

Skype, gaming, chatting, etc. The USB connection is ideal for when you are recording songs or busy vlogging. The USB connection will provide the necessary audio quality, making sure you can impress your audience.

#### Tripod stand

The Radi USB microphone is equipped with a tripod stand and can be adjusted in height and angle. This allows you to use the microphone in the most comfortable way possible. The tripod comes in one piece, so there is no need to assemble anything. Thanks to the detachable 1.8m cable, you can place the Radi anywhere on your desk.

#### Volume control and mute switch

With the volume switch on top of the microphone, you can easily adjust the volume or mute the microphone. In this way, you don't have to reach for your computer, making it easier to play with the volume while recording or to quickly mute your microphone during a Skype session.
