Share your world

The High Definition webcam has a resolution up to 8 megapixels. It is ideal for video chats and online streaming using for example Twitch, YouTube or your favourite streaming channel. The automatic white balance and fixed focus make sure you have a clear and sharp image whether you're using the camera during daylight or in the evening. And with the special button, you can take pictures up to 8 megapixels. Connect with the UBS cable and capture that ultimate moment!

Drop that sound

The high-performance microphone connects you with your gaming team or allows you to comment on your gaming style. The microphone completes your streaming set-up with the attractive red LED illumination.

High-level talk

Simply plug in the microphone's 1.40m USB cable, adjust the arm and you are instantly in contact with the world online. The mute function on the microphone allows you to easily mute the sound with a single push of a button and the volume control wheel sets you up for clear and distortion free communication.

Stand strong

You don't have to worry about moving around and knocking over your streaming set. With the microphone's weighted desk stand, you always stand strong. The webcam features a smart, flexible stand: you can put the webcam on top of your laptop screen or simply place the webcam on a flat surface for stable and secure video imaging.
