Automatic lock

Preparing yourself for a drive was never as easy as with the Juvo10 Wireless Fast-Charging Car Phone Holder with automatic lock. You can put your phone in the holder and it will automatically lock your phone in place and start charging it. Thanks to the pressure-sensitive mechanisms, you'll need only one hand to place or take your phone!

Wireless charging

Simply put your Qi-compatible smartphone in the holder and it will start charging automatically. The holder supports fast-charging 7.5W mode for iPhone and 10W mode for Samsung Galaxy. Most other Qi-compatible phones are charged at 5W.

Adaptable mounting

With the included accessories, you can easily attach the holder to your car window, dashboard or air vent. Thanks to its adjustable angle, the car holder is 360° rotatable and all smartphone buttons and connectors are accessible. In this way, you'll have a perfect view of and access to your screen.

Peace of mind

The Juvo10 is certified by the Wireless Power Consortium (WPC) to ensure optimal reliability. Connect the holder to a 2A USB charger using the included cable, and never bother with charging cables again.

Specifications

Total weight	221 g
---------------------	-------

Weight of main unit	114 g
