System requirements	- PC, laptop, phone or tablet with Bluetooth or 3.5mm audio connection - USB port (for power)

Marketing

Extended retailer text	Sound & Colours
	Enjoy movies, music and games in a new way. By plugging the Trust Arva 2.0 Illuminated Speaker Set into your PC or laptop, you'll enjoy your entertainment in clear stereo sound, while the RGB LED Illumination provides some extra flair. This set is powered by USB, so don't worry about finding a wall plug. And with a standard 3.5mm AUX connection and Bluetooth, you have plenty of flexibility, too.

Clear Stereo Sound

Thanks to the powerful 70mm drivers, the Trust Arva provides clear stereo sound with 20W of peak power (10W RMS). They are protected by a stylish, metal grille which gives the RGB illuminated drivers an extra touch. The automated colour cycle is sure to put a smile on your face when listening to your favourite tunes.

All the Connections

The Arva is powered by USB, so just connect these speakers to a free USB port and enjoy the show. Connect the 3.5mm AUX cable to the audio-jack in your PC, laptop, tablet or smartphone and select what you want to listen to. Or go wireless with Bluetooth and be a DJ from across the room. Would you rather enjoy your music in private? There's a headphone-jack on the front of the speaker that lets you use your favourite headphones.

Controls

On the front side of the right speaker you have all the controls within arm's reach. Turn the power on or off, adjust the volume and select the LED mode you want to see. So connect your PC, laptop or phone and enjoy.

Specifications

Total weight	583 g
Weight of main unit	561 g
Height of main product (in mm)	205 mm
Width of main product (in mm)	87 mm
