Extended retailer text**Best of Both Worlds**

All of the benefits from mechanical and membrane keyboards, without the weaknesses. The Trust GXT 881 Odys gives gamers everything they need to break boundaries, without breaking the bank: anti-ghosting, LED illumination, a mechanical feel... The Odys delivers the best of both worlds.

Made for Gaming

The semi-mechanical switches in the Trust Odys give gamers exactly the feel they need. Every button press is felt, making the GXT 811 reliable for gamers who want the right feedback during their gameplay. Thanks to the use of conventional technology, you won't spend too much but still enjoy important features, such as anti-ghosting of up to 19 key presses.

Functionality is Key

The Odys is equipped with 10 direct access buttons and 12 media function keys to give you complete control over your media. While gaming, turning on the game mode will disable the Windows key, so you won't be accidentally kicked to your desktop screen. When your playing your favourite game, you're in full control.

Colourful Illumination

Functionality is one thing, but don't forget about style! The Trust GXT 811 Odys uses multi-colour LED illumination to deliver on this important factor, as well. With six different light modes and adjustable brightness settings, the Odys can be tailored to your personal style.
