or Android 4.0+ - Router/modem internet connection \*\* More information can be found on: [www.trust.com/zigbee](http://www.trust.com/zigbee)

## Marketing

Extended retailer text

With the Trust ICS-2000 Internet Control Station, you can control all your Trust Smart Home products with your smartphone or tablet, anywhere in the world! \* It is the ideal solution to wirelessly control and monitor your home for ultimate comfort and security.

Set to action

Set the combined actions of your choice and enable or disable at one touch of a button. You can, for example, create a ‘relaxing scene’ which dims your lights to 50% and closes the curtains: settle in and get comfortable! Or use the rules to execute actions on a specific trigger. This means for example that you can let the doorbell ring when movement is detected or turn on the light when a window is opened.

Set for security

With the ICS-2000, you can create the impression that you are always at home at night. The Control Station allows you to turn on and off your lighting at a fixed time or at sunrise or sunset. Leave home with a secure feeling! Furthermore, you can set to receive push notifications when movement is detected. This allows you to act quickly when unwanted visitors want to enter your home.

Easy to install

Connect the ICS-2000 with your modem or router via the supplied network cable and download the free Trust Smart Home app on your iPhone, Android smartphone or tablet. You can now set up as many as 16 rooms (e.g. living room/bathroom/garden, etc.) and add as many as 200 Trust Smart Home receivers.

Global operation

Since the ICS-2000 is connected to the internet, you can control your devices everywhere around the world. The ICS-2000 is easy to operate with multiple smartphones or tablets, allowing all family members to operate the network. The system is based on secure communication (AES-128 and SSL), ensuring optimal security!

## Specifications

|                                |        |
|--------------------------------|--------|
| Total weight                   | 586 g  |
| Height of main product (in mm) | 33 mm  |
| Width of main product (in mm)  | 127 mm |

|                               |              |
|-------------------------------|--------------|
| Depth of main product (in mm) | 12 mm        |
| Controls                      | on/off       |
| Indicators                    | Power on/off |
| Input voltage of main device  | 5 V          |
| Wireless technology           | Zigbee       |
| Wireless range                | 120 m        |
| Power source                  | wall socket  |
| Internal Flash Memory size    | 256 kB       |
| RAM Memory size               | 3 MB         |
