System requirements	- Trust Smart Home receiver

Marketing

Extended retailer text	This remote control allows you to operate up to 16 lights and devices remotely. Connect all your Trust Smart Home receivers, such as a flush-mounted switch, dimmer or smart plug, to the remote control and operate them individually or simultaneously at the touch of a button. For wireless control of one or more Trust Smart Home receivers.
-------------------------------	--

- Control up to 16 separate lights and devices
- Control multiple lights and devices with a single button
- Includes battery with an average life of 3 years
- Transmission range up to 30 metres

All your lights and appliances in one remote control! With the AYCT-102, you can switch up to 16 lights and appliances from the comfort of your armchair.

Automatic control

This remote control has 16 channels. This means you can control 16 receivers separately from each other. Think, for example, of your lighting (with the ACM-250 built-in dimmer), electrical equipment (in combination with ACC-2300) and roller shutters and sun blinds (in combination with ASUN-650). This remote control is also ideal for switching off all the bedroom lights from your bed or turning on the garden lights from the living room. Enjoy full control from a single device.

Long range

The remote control signal passes through walls, windows and doors with a range of up to 30 metres. This, combined with the long battery life, makes this remote control suitable for any home!

From smart solutions to a Smart Home

With the Smart Bridge (or Internet Control Station), you lay the foundation for your smart home. Connect all your Trust Smart Home products to the Bridge and control everything – from lighting to electric curtains – with your smartphone or tablet. Or set timers, rules and scenes as desired to fully automate your system. For example, the lights will turn on in the evening when you are on holiday and the boiler will be switched off if the CO detector detects a carbon monoxide leak.

Specifications

Total weight	97 g
Weight of main unit	50 g
Height of main product (in mm)	16 mm
Width of main product (in mm)	34 mm
Depth of main product (in mm)	130 mm
