<b>System requirements</b>	- WiFi Home network - Mains power connection - Smartphone/tablet with: iOS 7+ or Android 4.0+

## Marketing

### Extended retailer text

With the Trust Smart Home Wi-Fi IP-camera you are always aware of what is going on at your (vacation) home, garden or company. Easily keep an eye on your kids while they are playing or when your pet is home alone.

#### Smart notifications

With the IP-camera you can select the ideal level of motion detection sensitivity. Easily select the preferred level (6 levels in total) or turn the motion detection off completely. When the camera detects movement, you can even receive a notification of this on your tablet or smartphone. This way you will know when someone is in your house or when your child is awake.

#### Optimal image: day & night

The infrared lighting guarantees a clear night vision with a range of up to 10 metres. The IP-camera offers you a 720 pixels High-definition image with a 67 degrees wide angle lens. This ensures an optimal view that covers the entire room.

#### Built-in speaker

The camera also has a built-in speaker, so you can talk to people via the camera. Ideal when you use it as a baby monitor.

#### Simple installation

Connect the included power adapter (3 metres) to the IP-camera and download the free multilingual Trust Smart Home app for your smartphone or tablet. Connect your smartphone or tablet to the camera's Wi-Fi network and follow the steps explained in the manual. Within minutes you'll be ready to start recording, without any difficult technical settings. Place the IP-camera in the ideal location, by using the included camera stand or mounting materials.

#### Watch anywhere

You can watch the live image of your camera on your phone, no matter where you are. Check how your pets are doing while you're at work, and check if your children are still sleeping while enjoying a movie on your couch.

#### Micro SD recording

The camera has a Micro SD port which you can use to record images on a Micro SD card(max 64 GB of memory). You'll have the opportunity to watch the images back on any device with a Micro SD port.

\*Micro SD card not included

## Specifications

### Height of main product (in mm)

120 mm

### Width of main product (in mm)

78 mm

### Depth of main product (in mm)

90 mm

Sensor type	motion
Indicators	Power on/off
Input voltage of main device	5 V
Wireless range	15 m
WiFi frequencies supported	2.4 GHz
WiFi standards supported	
Microphone	true
Night vision	true
Night vision range	10 m
Focus type	fixed focus
Lens material	Plastic
Max Framerate	20 fps
Motion detection	true
Mounting materials included	screws
Wireless transmission power (dBm)	13 dBm
Power source	wall socket
Input voltage	230 V
Power adapter output current	1,5 A
Power adapter output voltage	5 V
