### Extended retailer text

Accentuate your home with the Trust ZigBee Dimmable LED Spot ZLED-G2705. This wirelessly controllable ZigBee smart spot illuminates your room with a homely, warm light (2700k); create the perfect atmosphere with one touch of a button!

#### Always the perfect atmosphere

Comfortably create a pleasant atmosphere in your home by adjusting the light intensity of the ZLED-2709 LED bulb. It is easily dimmable from 10% to 100% in the app\* or use the ZYCT-202 remote control for a perfect setting!

\*Note: ZigBee Control Station Z1 or ICS-2000 Internet Control Station is required for app use.

#### Easy installation

The spot can easily be placed in any GU10 socket when this socket is connected to a regular switch and not a dimmer switch. The dim function is integrated into the bulb itself. The regular light switch is of course still usable to turn your lights on and off. You can dim your light from the comfort of your couch using the remote control or the app. \*

#### ZigBee Compatibility

This spot is part of the Trust Smart Home ZigBee line. This means that it is compatible with the other products from the ZigBee range. These products are easily identified by their product code, which always starts with a "Z". For example: "ZLED-RGBG6", "Z1" or "ZYCT-202". This bulb is also compatible with the Trust Smart Home ICS-2000 control station.

All of these products work on the ZigBee protocol, the benefits of which are:

- Two-way communication: the products can send as well as receive signals. This means, for example, that you can see in the app whether a lamp is turned on or off. Very convenient for when you're not at home!
- Meshing network: all connected ZigBee products can receive and repeat signals, making each ZigBee product an amplifier that increases the range of your ZigBee network.
- Compatibility with other brands: the Trust ZigBee products are also compatible with other ZigBee certified systems such as Philips Hue, Osram Lightify or IKEA TRÅDFRI.

#### Economical solution

The ZLED-G2705 has a light output of 350 lumens and has the energy efficiency rating A+, so you will easily save money! This is not all, the spot has a lifespan of 20.000 hours which means you can create perfect lighting in your home for the next 20 years!
