### Marketing

<b>Extended retailer text</b>	Create the perfect ambience instantly without getting up from the couch with the Trust ZYCT-202 Remote Control with Wall Mount. With just one touch of a button, you can now turn lights on/off and smoothly dim and create the perfect atmosphere in your home.
-------------------------------	--

#### Smart control

With this ZigBee remote control, you can easily manage multiple lights at the same time. Use the five groups to operate five separate lights or add up to four lights to every group (control a total of 20 lights with a single remote!). Press the smart group function to turn all lights on or off simultaneously.

#### Dimming

Combine the ZYCT-202 remote control with a ZigBee LED bulb or spot and simply adjust the brightness of your light(s) to create the desired lighting effect at any time of day.

#### Always stored away, never lost

With the magnetic wall mount, you will never have to look for your ZigBee remote control again. Place the wall mount on the preferred location and put the ZYCT-202 into the wall mount after use. Always stored away, never lost!

#### ZigBee Compatibility

This remote control is part of the Trust Smart Home ZigBee line. This means that it is compatible with the other products from the ZigBee range. These products are easily identified by their product code, which always starts with a "Z". For example: "ZLED-RGBG6", "Z1" or "ZLED-G2705". This remote control is also compatible with the Trust Smart Home ICS-2000 control station.

All of these products work on the ZigBee protocol, the benefits of which are:

- Two-way communication: the products can send as well as receive signals. This means, for example, that you can see in the app whether a lamp is turned on or off. Very convenient for when you're not at home!
- Meshing network: all connected ZigBee products can receive and repeat signals, making each ZigBee product an amplifier that increases the range of your ZigBee network.
- Compatibility with other brands: The Trust ZigBee products are also compatible with other ZigBee certified systems such as Philips Hue, Osram Lightify or IKEA TRÅDFRI.

## Specifications

<b>Total weight</b>	120 g
<b>Height of main product (in mm)</b>	115 mm
<b>Width of main product (in mm)</b>	70 mm
<b>Depth of main product (in mm)</b>	15 mm

Controls dimm dimm+ on/off

Wireless protocols RF 2.4GHz

Wireless range 30 m
