Extended retailer text

Whether it's in the winter or a long summer holiday away from home, with the 3000 Outdoor Wi-Fi IP camera with night vision, you are always aware of what is going on at your garden, car or garage. Even when it's dark!

Simple installataion, fast online

You can watch the live image of your camera on your phone or tablet with the free app, no matter where you are. This way you will always know what is happening around your home. The Trust Smart Home app makes it possible to easy install the camera and to operate it via your smartphone or tablet.

Optimal image: day & night

The IPCAM-3000 can be used anywhere, indoor or outdoor. The IP65 water resistant design in combination with the external antenna for the best wireless performance and the strong metal housing with sun visor, makes this camera perfect for outdoor use. The camera is provided with adjustable mounting for easy attachment to the wall. You can connect the camera wireless via your wifi network or wired to a local area network. You can now monitor your driveway, garden house or other important places around your home for that ultimate sense of security!

Optimal image

The infrared lighting guarantees a clear night vision with a range of up to 25 metres. The IP-camera offers you a 720 pixels High-definition image with a wide angle lens. This ensures an optimal view that covers a large area, for example your garden. With the built-in memory of 16 GB you can record video clips and watch it later.

Smart notifications

Not only this camera offers you a couple of extra eyes around your house, it even warns you when movement is being detected. The camera allows you to define a motion detection grid. This is the area in which the camera will be triggered to send you a notification when motion is detected. This way you can take immediate action when it is necessary.

Specifications

Height of main product (in mm)	129 mm
Width of main product (in mm)	134 mm
Depth of main product (in mm)	85 mm
Sensor type	motion
Sensor resolution	1280*720

Controls	reset
Indicators	Power
Input frequency of main device	50 Hz
Wireless protocols	WiFi
Wireless range	15 m
Cables included	Power cable, network cable
WiFi frequencies supported	2.4 GHz
Microphone	false
Detection grid	true
Lens angle	70 degrees
Night vision	true
Night vision range	25 m
Talk back	false
Face recognition	false
Face tracking	false
Focus type	fixed focus
Lens material	Glass
Max Framerate	30 fps
Motion detection	true

IP Code (International Protection...	IP65
Mounting materials included	screws
Wireless transmission power (dBm)	2 dBm
Input rating	230v power adapter to 5V
Power plug type	EU
Power source	wall socket
Double isolation	double
Mains plug grounded	false
Power cable length	70 cm
Input frequency	50 Hz
Input voltage	230 V
Power adapter included	true
Power adapter output current	2 A
Power adapter output voltage	5 V
Firmware OTA updateable	true
Max external storage size	16.000 MB
Network communication protocols	TCP
RAM Memory size	16.000 MB
Compatible Software Platforms	iOS Android
