Trust Smart Home ZWLD-100 Wireless water leakage detector - White ML

Get push-notifications on your smartphone/tablet when water leakage is detected

Article number: 71216
Barcode: 8713439712162
GTIN: 08713439712162

Core content

Brand	Trust Smart Home
Product line	Zigbee line
Product type	Wireless water leakage detector
Colour	White
Plug country code	ML
Key features	- Place near (dish)washing machines, central heating, in sink cabinet etc. - Get notified and take quick action to prevent water damage and expensive repairs - Check sensor and battery status on your smartphone/tablet - Compact and wireless design, can easily be mounted to any flat surface (indoors)
Package contents	- Wireless water leakage detector - Double sided 3M tape (pre-attached to sensor) - Manual
System requirements	- Trust Smart Home bridge/control station (e.g. Z1 ZigBee Bridge or ICS-2000) - 2x AAA alkaline batteries (not included)

Marketing

Extended retailer text	Prevent water damage and expensive repairs! Thanks to the leak detector, you know immediately when there is a leak in the house, thanks to a push notification on your smartphone. This way you can take immediate action and prevent worse.

The Leak Detector is easy to place in any place in the house where a leak can occur, for example in the sink or basement. The wireless design (battery operated) makes it easy to stick the detector where you want it. If the detector comes into contact with water, you will receive an instant alert on your phone or tablet.

- Place near washing machines, the central heating, in the sink or in the basement
- Receive a notification and take action quickly to prevent water damage and costly repairs
- Check sensor and battery status on your smartphone/tablet
- Compact, wireless design that can be easily mounted on any flat surface (indoors)
- To use this product a Smart Bridge is required

Protect your home against moisture damage from leaks with this Zigbee leak detector. Add this detector to your Trust Switch-in network and receive push notifications on your smartphone or tablet when water is detected. This way you can quickly take action and prevent water damage and expensive repairs!

Designed for detection
Leaks often happen in places where they are hard to spot. For example behind the washing machine or in places in your home you don't often go, like the basement. Thanks to the Smart Leak Detector, you can prevent serious water damage by placing the detector in these high-risk spots.

Immediately informed
By connecting the detector to the Smart Bridge a push notification is sent when water is detected. This means you are immediately informed if and where a leak has occurred.

You can also go a step further: if you connect a pump to a smart plug, for example, then you can activate it as soon as the leak detector detects moisture and thus prevent the cellar from flooding.

Smart placement
The Leak detector consists of two parts: the sensor and the transmitter. You can place the sensor directly on the surface where leaks can occur. When it detects water, it sends a signal to the transmitter. Simply install the transmitter on a flat surface and it will send the information wirelessly to your Bridge. This way you receive an instant push notification on your smartphone or tablet when water is detected.

From smart solutions to a Smart Home
With the Smart bridge you lay the foundation for your smart home (and garden). Link all your Trust Switch-in products to the Bridge and operate everything - from lighting to electric curtains - with your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the (garden) lights go on at night when you are on holiday and the central heating boiler is switched off when the CO detector detects a carbon monoxide leak.

Specifications

Total weight	54 g
Height of main product (in mm)	76 mm
Width of main product (in mm)	36,6 mm
Depth of main product (in mm)	16,5 mm
Application	Home Indoor
Anti tamper system	no
Automatic OFF signal	no
Sensor type	water
Compatible Product Lines	Zigbee Line
Google home compatible	false
Google assistant compatible	false
Philips Hue application	false
Philips Hue entertainment	false
Apple Homekit	false
