

Trust Smart Home ACM-2300-HC Build-in switch - White ML

Switch all your existing lights and appliances remotely , keeping the existing wall switches working

Article number: 71229
Barcode: 8713439712292
GTIN: 08713439712292

Core content

Brand	Trust Smart Home
Product line	Start line
Product type	Build-in switch
Colour	White
Plug country code	ML
Key features	- Wirelessly control any light/device up to 2300 Watt - Compact design: can be easily installed in a ceiling or junction box - Works with Trust Smart Home Start Line remote controls, wall switches, sensors or ICS-2000 (App) - Saves energy: lights/devices are switched off automatically after 1m, 10m, 1h, 4h - Connect up to 2 existing wall switches, for example at the top and bottom of a stairwell - Existing wall switches remain operational
Package contents	- Build-in switch - Manual
System requirements	- Trust Smart Home transmitter (Start line)

Marketing

Extended retailer text	Control everything remotely: from lighting and fan to air-conditioning
-------------------------------	------------------------------------------------------------------------

The pendant lamp above the dining table or the air-conditioning system in the bedroom: thanks to this build-in switch, you can operate them remotely. Mount the dimmer easily and invisibly behind the ceiling cap of your lamp or appliance and use a Trust Switch-in transmitter of your choice to operate it.

Control it your way!

The build-in switch can be controlled with any Trust Switch-in transmitter, such as the remote control AYCT-303or wireless wall switch AWST-9000. Or connect it to the free Trust Switch-in app (via the Smart Bridge) and control your lights and devices with your smartphone, even when you're not at home.

Keep your existing wall switches

We understand that you might want to keep your existing wall switches. When using the ACM-2300, your existing 230V wall switches will continue to do their job. You can therefore still switch your lamps on and off with the wired wall switches. Thanks to the compact design, you can easily install the recessed switch in a ceiling box. You can connect up to two existing wall switches, for example at the top and bottom of the stairs.

From clever solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home (and garden). Link all your Trust Switch-in products to the Bridge and operate everything - from lighting to electric curtains - using your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the (garden) lights go on at night when you're on holiday and the central heating boiler is switched off when the CO detector detects a carbon monoxide leak.

Specifications

Total weight	30 g
Weight of main unit	30 g
Height of main product (in mm)	45 mm
Width of main product (in mm)	40 mm
Depth of main product (in mm)	15,2 mm
Application	Indoor
