Package contents	- Wireless single wall switch - Battery (CR2032) - Mounting materials - Manual
System requirements	- Trust Smart Home receiver

Marketing

Extended retailer text	<p>A single and double wall switch in one!</p> <p>The AWST-9000 looks like a normal wall switch, but has the advantage that the control buttons are replaceable. This way, you can decide whether you want to use the AWST-9000 as a single or double switch. This switch can also be placed anywhere in the house without the hassle of wires or high voltage. This transmitter runs on batteries (included).</p>
-------------------------------	--

A switch for every application

With this wireless wall switch you can switch the desired Trust Smart Home receivers from anywhere in the house. So you can easily operate your lighting, electrical equipment (in combination with the ACC-2300) or even roll-down shutters and sun blinds (in combination with the ASUN-650). The included mounting material allows you to place the switch at the ideal location in your home.

Never forget to switch off the light again

Thanks to the adjustable switch-off function, devices and lights can be switched off automatically after 5 seconds, 1, 10 or 30 minutes or after 1 hour. Ideal for carefree operation in any situation.

From clever solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home (and garden). Link all your Trust Smart Home products to the Bridge and operate everything - from lighting to electric curtains - using your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the (garden) lights go on at night when you're on holiday and the central heating boiler is switched off when the CO detector detects a carbon monoxide leak.

Specifications

Weight of main unit	60 g
Height of main product (in mm)	15 mm
Width of main product (in mm)	80 mm
