

Trust Smart Home ZCO-900 Wireless carbon monoxide detector - White ML

Wireless Zigbee carbon monoxide detector that warns you with an alarm and a notification on your smartphone (via the Smart Bridge)

Article number: 71260
Barcode: 8713439712605
GTIN: 08713439712605

Core content

Brand	Trust Smart Home
Product line	Zigbee line
Product type	Wireless carbon monoxide detector
Colour	White
Plug country code	ML
Key features	<ul style="list-style-type: none"> - Receive a push message in time when a dangerous concentration of carbon monoxide gas is detected; works anywhere in the world - Carbon monoxide is an invisible and odorless gas that can be life-threatening. This gas is produced in the event of incomplete combustion in, for example, central heating boilers and gas stoves - Loud acoustic alarm of 85 dB - Tested according to the strictest compliance and quality standards. - Warning sound with low battery - Check sensor and battery status on your smartphone/tablet - Compact design. Can easily be mounted on a wall (inside) - Battery can be replaced by the user and has a duration of 3 years
Package contents	- Wireless carbon monoxide detector - Battery (CR123A) - Mounting materials - Manual
System requirements	- ICS-2000 Control station or Z1 bridge

Extended retailer text

Get smart security. In addition to a loud alarm, the Smart Wireless Carbon Monoxide Detector alerts you with a push notification on your smartphone as soon as a dangerous concentration of carbon monoxide is detected. So you're always in the know, wherever you are. Want to go one step further? Combine this detector with our smart plug and automatically switch off your boiler in the event of a co leak. That is Trust Switch-in's smart security.

- Wireless carbon monoxide detector that warns by sound and / or a push message on smartphone
- Tested according to the strictest compliance and quality standards
- Emits a warning signal when the battery is low
- Sensor and battery status checked on your smartphone
- Compact design: only 6x6x4.9cm
- Can be placed anywhere (read manual beforehand for correct placement)
- Loud 85 dB acoustic alarm
- Battery has an expected working life of 3 years and is easy to replace
- Combine with Trust Switch-in receivers, such as a socket switch or build-in switch and have, for example, the central heating switched off automatically or switch on all the lights automatically when the alarm sounds.
- Please note: the wireless carbon monoxide detector works in combination with the Smart Bridge
- EN 50291-1, EN 50270 and CE-certified

Smart protection in the event of a carbon monoxide leak

Carbon monoxide, or CO, is an odourless and invisible gas that can be life-threatening. Inhalation of this gas poses the risk of carbon monoxide poisoning, with serious, often fatal consequences. A good carbon monoxide detector can warn you in time of a dangerous concentration of CO and save your life. The clever wireless CO alarm, in combination with the wireless smoke detector, provides optimal security in case of fire and carbon monoxide development in the home. The CO detector has a very compact size of only 6x6x4.9cm and is tested to the highest quality standards.

Push notifications

In addition to an acoustic signal, the wireless carbon monoxide detector immediately sends a push message to your smartphone when a dangerous concentration of carbon monoxide is detected. You will also receive a notification on your phone when the batteries are low.

Give your notification a smart consequence

Combine the carbon monoxide detector with a Trust Switch-in receiver – for example a wall switch – and give a consequence to the co-message. For example, automatically switch off the central heating when the CO Alarm goes off or switch on all the lights.

Easy to place and install

The Carbon Monoxide Alarm is very easy to install. Download and install the app to connect the detector to a Smart Bridge. Select a room in the app, select the Premium line/ Smoke Alarm and follow the instructions. Then simply mount the smoke detector in any location using the supplied bracket.

Compatibility

To receive push notifications, the Carbon Monoxide Detector must be paired with the Smart Bridge.

Strict certification

Don't let the compact design fool you: this detector is tested to the most stringent compliance and quality standards and offers reliable protection.

From smart solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home (and garden). Link all your Trust Switch-in products to the Smart Bridge and operate everything – from lighting to electric curtains – with your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the (garden) lights go on at night when you're on holiday and the central heating boiler is switched off when the CO detector detects a carbon monoxide leak.

Specifications

Weight of main unit	70 g
Height of main product (in mm)	49,2 mm
Width of main product (in mm)	60 mm
Depth of main product (in mm)	60 mm
Application	Indoor
Anti tamper system	no
Automatic OFF signal	no
Compatible Product Lines	Zigbee Line
