### Marketing

<b>Extended retailer text</b>	<p>This smart and waterproof plug-in switch allows you to control your garden lights and appliances remotely all year round with a remote control, wireless wall switch or motion sensor. Ideal if you want to stay in your chair on a warm summer evening, or if you prefer to stay inside at night to switch on the Christmas lights.</p> <ul style="list-style-type: none"> <li>- New design: very compact plug</li> <li>- For everything with a plug: from garden lighting to pond pump</li> <li>- Pair with different transmitters: remote control, wireless wall switch or even motion detector (or combine with</li> </ul>

the Smart Bridge (or the Internet Control Station) to control the plug with your smartphone).

- IP44: suitable for outdoor use
- Up to 3500W: suitable for all appliances and lights with a plug
- Equipped with a new chip: no problems with switching if several plugs are placed right next to each other

The splashproof plug from Trust Switch-in is suitable for every power outlet in the garden or on the balcony. Combine the plug with a transmitter of your choice, for example a remote control or wireless wall switch, and you are ready to operate it remotely.

Thanks to the maximum load of 3500 Watt there is no appliance or lamp that you cannot operate wirelessly.

More compact design

The new plug is a lot more compact than its predecessor, without compromising on quality. The plug is only 8.0 x 5.1 x 6.0 cm and is fitted with a cover that closes the plug when not in use.

Also available as a set

This outdoor plug switch is also available in a set of 2 plugs + remote control. Need more plugs? No problem. You can link up to 32 plugs to the remote control.

From smart solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home. Link all your Trust Switch-in devices to the Bridge and operate everything - from lighting to electric curtains - using your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the (garden) lights go on at night when you are on holiday and the central heating boiler is switched off when the CO detector detects a carbon monoxide leak.

## Specifications

<b>Total weight</b>	185 g
<b>Weight of main unit</b>	100 g
<b>Height of main product (in mm)</b>	70 mm
<b>Width of main product (in mm)</b>	70 mm
<b>Depth of main product (in mm)</b>	53 mm
<b>Application</b>	Outdoor
