

Trust Smart Home -

Control your (existing) lighting via Matter apps, such as Google Home and Apple Home. In addition, you can also operate this dimmer with Trust Smart Home transmitters and existing (wired) wall switches remain functional.

Article number: 71361
Barcode: 8713439713619
GTIN: 08713439713619

Core content

Brand	Trust Smart Home
Key features	<ul style="list-style-type: none"> • Works with apps that support Matter, including Google Home and Apple Home/Home • No Smart Bridge or ICS-2000 required. Does require a device that can be used as a Matter bridge (such as an Apple HomePod or Google Nest speaker) • Also works with Trust Smart Home transmitters, such as remote controls and wireless wall switches • Existing (wired) wall switches continue to work (also in hotel switching, e.g. at the top and bottom of a staircase) • Dims LED up to 120 Watt, halogen lighting up to 250 Watt • Suitable for all types of dimmable (LED) lighting due to three special dimming modes • Compact design; easy 'invisible' mounting in the ceiling or junction box • Dimming memory: remembers the last dimming setting • High performance; dims LED from 3-100W, halogen lighting up to 250W • Voice control via Siri and Google assistant • Compact design; 'invisible' mounting in ceiling or junction box
Package contents	• Matter dimmer • Manual
System requirements	<p>FOR MATTER: - iPhone/iPad with iOS 16.1 or higher or Android phone/tablet with Android 8.1 or higher - 2.4 Ghz Wifi network - Matter hub (e.g. a Google or Apple smart speaker)</p> <p>FOR DIRECT OPERATION WITHOUT AN APP: - Trust Smart Home transmitter, e.g. a wireless wall switch, remote control</p>

Marketing

Extended retailer text	Control your (existing) lighting via Matter apps, such as Google Home and Apple Home. You can also operate this dimmer with Trus Smart Home transmitters and existing (wired) wall switches remain functional. For full control over your lighting.
-------------------------------	---

- Works with Matter-enabled apps, including Google Home and Apple Home/Home
- No Smart Bridge or ICS-2000 needed. Does require a device that can be used as a Matter bridge (such as an Apple HomePod or Google Nest speaker)
- Also works with Trust Smart Home transmitters, such as remote controls and wireless wall switches
- Existing (wired) wall switches continue to work (also in a hotel switch, e.g. at the top and bottom of a staircase)

Thanks to the Matter recessed dimmer, you control all your (existing) lighting via various Matter platforms, such as Google Home and the Apple Home app. You can also operate this dimmer with one or more Trust Smart Home transmitters of your choice, while existing wall switches continue to work. So you have full control over your lighting.

The Matter protocol is the latest Smart Home standard that allows smart devices of different brands to communicate with each other. So in apps that support Matter (think Google Home, Apple Home), you can add Matter smart devices and have them work together.

- Works with apps that support Matter, including Google Home and Apple Home/Home.
- No Smart Bridge or ICS-2000 required. Does require a device that can be used as a Matter bridge (such as an Apple HomePod or Google Nest speaker)
- Also works with Trust Smart Home transmitters, such as remote controls and wireless wall switches
- Existing (wired) wall switches continue to work (also in hotel switching, e.g. at the top and bottom of a staircase)
- Dims LED up to 120 Watt, halogen lighting up to 250 Watt
- Suitable for all types of dimmable (LED) lighting due to three special dimming modes
- Compact design; easy 'invisible' mounting in the ceiling or junction box
- Dimming memory: remembers the last dimming setting
- High performance; dims LED from 3-100W, hallogen lighting up to 250W
- Voice control via Siri and Google assistant
- Compact design; 'invisible' mounting in ceiling or junction box

Make all your lamps smart!

With this built-in module, you can make any lamp smart. Because you can easily hide the module behind the ceiling cap of your lamp, for example, you do not need to install a smart light source to operate your lamp smartly. So you can simply continue to use your existing light sources. The module is suitable for all types of dimmable lighting and allows you to control it with both Matter apps and Trust Smart Home transmitters.

Choose your favourite app

If you use Google Home or have the Apple Home app installed on your smartphone, you can easily add this module to your favourite app. So you are not stuck with one specific app or brand, but can choose the one that best suits your needs. In this app, you can then switch, dim, automate and even make your lights work with other devices in the app.

Do you already have a Matter hub?

To use Matter, you need a Matter hub. This is a device that acts as a central connection between your Matter devices and your network.

Fortunately, there are a lot of devices that can serve as hubs. Google, Apple and Samsung, among others, have several devices that can do this.

Some common Matter hubs:

- Google Nest Hub (2nd generation)
- Google Nest Hub Max
- Google Nest WiFi Pro
- Apple HomePod (2nd generation)
- Apple HomePod mini
- Apple TV 4K WiFi + Ethernet
- Samsung SmartThings Station

Specifications

Total weight	68 g
Weight of main unit	35 g
Height of main product (in mm)	47 mm
Width of main product (in mm)	47 mm
Depth of main product (in mm)	18 mm
Dimming modulation	leading-edge trailing-edge
Compatible Product Lines	Start Line
Google home compatible	Yes
Google assistant compatible	Yes
Philips Hue application	No

Philips Hue entertainment No

Apple Homekit Yes

Philips Hue Over-the-Air Updates No

Amazon Alexa compatible No
