Marketing

Extended retailer text	<p>Wireless single/double wall switch for wireless control of one or more lights and/or appliances.</p> <ul style="list-style-type: none"> - Interchangeable push buttons: choose a single or double wall switch - Can be placed anywhere - Adjustable switch-off time: switch off a lamp/device after a set time <p>A single and double wall switch in one! This wall switch comes with extra control buttons, so you can decide whether to use it as a single or double switch.</p>
-------------------------------	--

The wall switch is battery-powered and can therefore be placed anywhere in the house, without complicated connection diagrams or drilling holes in walls.

A switch for every application

With this wireless wall switch, you can switch Trust Smart Home receivers from anywhere in your home. This allows you to easily control your lighting or electrical appliances, for example. With the included mounting materials, you can place the switch wherever you want.

Never forget to turn off the lights again

Use the adjustable switch-off time to automatically switch off appliances and lights after 5 seconds, 1, 10 or 30 minutes, or after 1 hour. If you use two buttons, you can select a switch-off time for each button.

Long range

The signal from the wall switch passes through walls, windows and doors and has a range (indoors) of up to 30 metres.

From smart solutions to a Smart Home

The Smart Bridge lays the foundation for your smart home. Connect all your Trust Smart Home products to the Bridge and control everything – from lighting to electric curtains – with your smartphone or tablet. Or set timers, rules and scenes as desired to fully automate your system. For example, the lights will turn on in the evening when you are on holiday and the boiler will be switched off if the CO detector detects a carbon monoxide leak.
