Smart Home WiFi app, you can immediately start a conversation with the person at the door. This is useful if you are not at home but still want to talk to your visitor or pass on a message.

At the same time, the video doorbell (if desired) secures the front garden thanks to the smart recording function, which is activated when the camera detects movement.

All you need is WiFi!
Add the smart doorbell camera to the free Trust Smart Home WiFi app and use your phone to answer visitors or view recordings. All you need is WiFi (2.4 GHz), so there are no expensive hubs or subscription fees.

Crystal clear images 24/7.
See visitors in crystal-clear images with a resolution of 3MP. The doorbell is equipped with infrared night vision, so you also have excellent images in the dark.
Thanks to the wide-angle lens, the camera captures a large part of the outdoor area, allowing the doorbell to keep an eye on things.

2-way audio for direct contact.
Whether you're at work, out shopping or relaxing on the sofa, 2-way audio means you're always in direct contact with whoever is at the door. For example, you can instruct the parcel delivery driver to leave the parcel with your neighbours or ask an unexpected visitor to wait while you're on your way.

Local storage, no subscription fees.
Easily store video footage locally via a microSD card of up to 256 GB (not included). This way, you always have access to your recordings without additional subscription costs for cloud storage.

Includes wireless chime for your home.
Never miss a visitor: place the included wireless chime anywhere in your home so you can always hear the doorbell, even if you don't have your smartphone handy. Choose from dozens of melodies and set the desired volume of the chime with the touch of a button.

Video recording when the doorbell rings or motion is detected.
The camera automatically starts recording (optional) as soon as movement is detected at your front door. You can easily view these recordings in the app, so you can see exactly what happened.
Please note: an SD card is required to use the recording function.

Flexible power supply: built-in battery & wired (USB-C or 8-24V).
The smart video doorbell has a built-in battery, allowing you to use it completely wirelessly. Charging is easy via USB-C. Prefer a permanent power supply? The doorbell also supports a wired connection (8-24V), so you never have to think about charging. This allows you to choose the installation that best suits your situation.

Your doorbell itself is also well secured.
