Marketing

Extended retailer text	Switch to wireless control and gain insight into your energy consumption at the same time with the smart WiFi plug set with energy measurement. Control and automate your lights and appliances with the free Trust Smart Home WiFi app and view the energy consumption (live daily and monthly) of your connected devices. Thanks to the included remote control, you always have an extra control option in your home for your plugs. All you need is WiFi!
-------------------------------	---

Add the smart plugs to the free Trust Smart Home WiFi app and use your phone or tablet as a remote control, without the need for an expensive hub. All you need is an internet connection. Switching to smart control has never been easier!

Extra control included

Don't have your smartphone handy? With the included remote control, you have an extra control option for your smart plugs. This allows you to easily switch the WiFi plugs on or off at the touch of a button.

The remote control also works with all (RGB) LED lights, spotlights and plugs from Trust Smart Home WiFi.

Insight into your energy consumption.

Thanks to energy measurement, the smart plugs provide real-time insight into the consumption of your connected device. The wattage is displayed in the app. These insights can help you identify high-consumption devices and switch them on at times when solar panels are generating energy or during off-peak hours.

The app shows current consumption and also provides insight into daily, monthly and annual consumption.

All smart options at your fingertips.

Trust Smart Home WiFi brings a whole host of convenience into your home. Not only can you control your lighting and appliances with your smartphone, you can also automate them in the app. With the timer settings, you can switch all smart devices on and off at a time of your choosing.

Smart scenarios.

Thanks to the "smart scenarios" option in the app, you can also create your own scenes and automate the plugs using conditions such as location and weather.

Hey Google, turn off the floor lamp.

If you use a Google or Amazon Alexa speaker, you can easily control the smart plugs with energy measurement using your voice.

Expand easily.

Get even more out of your smart home with the smart WiFi LED lights and security cameras from Trust Smart Home WiFi. Add them to the free app and light and secure your entire home smartly.
