

Trust Smart Home ESWITCH-OUTDOOR Outdoor plug switch -

Outdoor plug for controlling outdoor lights and appliances with your smartphone.

Article number: 71420
Barcode: 8713439714203
GTIN: 08713439714203

Core content

Brand	Trust Smart Home
Product type	Outdoor plug switch
Key features	• Smart control via smartphone app • High power support up to 3680 W, suitable for heavy-duty appliances • Weatherproof design, suitable for outdoor use (IP44) • Set up smart schedules and timers • Easy setup and intuitive app control on iOS and Android Voice Control via Google Home or Alexa • Child safety shutters • 2.4 GHz wifi
Package contents	• Outdoor plug • User guide
System requirements	• 2.4 GHz home wifi network • Smartphone/ tablet iOS 11+ or Android 6.0+

Marketing

Extended retailer text	Make your garden and outdoor space smart with the WiFi outdoor plug. Easily control your outdoor lighting, pond pump or patio heater via the free Trust Smart Home WiFi app. Whether you're at home or on the go, you always have complete control over your connected devices. All you need is WiFi! Plug in the outdoor plug and add it directly to the free app – without the need for an expensive hub. All you need is an internet connection. This allows you to make your outdoor space smart in just a few minutes. Suitable for outdoor use.
------------------------	---

The smart WiFi outdoor plug is specially designed for outdoor use and is resistant to rain and cold. Thanks to its splash-proof housing, you can safely place it in the garden, on the balcony or under a canopy.

Insight into your energy consumption.

Thanks to energy measurement, the smart plugs provide real-time insight into the consumption of your connected outdoor device. The wattage is displayed in the app. These insights can help you identify high-consumption devices and switch them on at times when solar panels are generating energy or during off-peak hours.

The app shows current consumption and also provides insight into daily, monthly and annual consumption.

Control wherever and whenever you want.

Turn on your garden lighting while you're still on the way home or automatically switch off your (Christmas) lights when you go to sleep. You can easily control connected devices remotely with your smartphone or tablet. This means you'll never have to go outside to switch something on or off manually again.

Automate with timers and schedules.

With the handy scenarios in the Trust Smart Home WiFi app, you can decide when your devices switch on or off. For example, have your outdoor lighting switch on automatically at sunset and switch off again at a set time. This saves energy and increases comfort.

Talk to your system.

'Hey Google, turn on the garden lights' or 'Alexa, turn off the outdoor socket.' Connect the outdoor socket to your Google or Amazon speaker and easily control your devices with your voice.

Expand easily.

Expand your smart ecosystem with other Trust WiFi products, such as smart lights, smoke detectors and security cameras. Add them to the same free app and turn your entire home and garden into a smart environment.
