System requirements	- Indoor power socket

Marketing

Extended retailer text	Become acquainted with wireless control!
The smart socketset is the ideal way to become acquainted with wireless operation and a smart home. The set consists of 3 compact socket switches that you can easily operate at a distance with the supplied remote control. In

this way you can operate three separate devices or lights with a plug very easily from the couch, your lazy chair or from your bed.

A wireless solution

Why control every light in your home manually when you can do it from the comfort of your couch with just one push of a button. With the supplied remote control you can operate all your lamps and devices that are connected to a plug. The power is in your hands! Don't waste time or energy operating your lights, especially if you have limited mobility. The switches work with all lamps and other devices up to 2300 Watts.

Erweitern Sie Ihr intelligentes System ganz einfach

Would you like to add more socket switchesor do you want to operate these with a wireless wall switch, movement sensor or smartphone in addition to the remote control? No problem. You can add more transmitters. For example, you can have the light go on automatically the moment you open the closet or climb the stairs.

From clever solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home (and garden). Link all your Trust Switch-in products to the Bridge and operate everything - from lighting to electric curtains - using your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the (garden) lights go on at night when you're on holiday and the central heating boiler is switched off when the CO detector detects a carbon monoxide leak.
