## Marketing

**Extended retailer text** Splash proof junction box to fix and use the ACM-3500-3 switch outdoors.

- Can be placed anywhere outdoors

- Easy connection to earth cable

- Splash proof (IP56)

---

The dust- and splashproof mounting box is specially designed for installation of the flush-mounted switch ACM-3500-3. The mounting box is supplied with cable glands and screws.

The 3-in-1 build-in switch is intended to wirelessly switch lights or equipment up to 3500W on/off, divided over three outputs. This way, you can switch three lamps or devices on and off wirelessly with one receiver. Per output you can register one to a maximum of six Trust Switch-in transmitters.

By placing the receiver in this splashproof mounting box, you can also use it outdoors. In this way you have an ideal possibility to wirelessly control garden lights, pond pumps and the lighting in the shed with just one receiver with one or more Trust Switch-in transmitters.
