

Trust Smart Home AMU-500 Universal Switch - White ML

Universal wireless switch to control low-voltage motors, automated door openers and doorbell installations (max. 500 Watt)

Article number: 78109

Barcode: 8713439781090

GTIN: 08713439781090

Core content

Brand	Trust Smart Home
Product line	Start line
Product type	Universal Switch
Colour	White
Plug country code	ML
Key features	- Potential free switch for up to 230V AC/DC (max. 500 Watt) - Can be used to control 230V AC motors and 12–24V DC motors for automated door openers and garden fences - Also suitable for pulse-input and existing doorbell installations - Automatic shutdown settings: none, 1sec., 5sec. or 2min
Package contents	- Universal switch - Manual
System requirements	- Trust Smart Home transmitter

Marketing

Extended retailer text	Universal switch to (remotely) control low voltage motors, automatic door openers and doorbells. Combine the AMU-500 with a Trust Switch-in transmitter of your choice and control it with a remote control, key fob or wireless wall switch, for example.
-------------------------------	--

- Potential-free switch for maximum 230V direct/ alternating current (max. 500 Watt)
- Can be used for 230V AC motors and 12-24V DC motors in automatic door openers and garden gates
- Also suitable for pulse input and existing doorbells
- Automatic switch-off settings: none, 1 sec, 5 sec or 2 min

Various possibilities

This receiver can be set in software to switch off automatically after 1 second, 10 seconds, 2 minutes or 'manually' (On with the On button, Off with the Off button).

- Due to the automatic switch-off time of 1 second, this module can be used as a pulse switch.
- Thanks to the 10-second switch, the switch is also suitable for controlling, for example, an existing bell system in combination with the Trust Switch-in wireless push button.
- The 2-minute switch is very suitable for switching a fan or temporary lighting.
- With the 'manual' mode you can switch the receiver on and off as you are used to with the transmitter and you can use it for low voltage applications or regular switching. The AMU-500 switch can be controlled with various Trust Switch-in transmitters.

From smart solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home (and garden). Link all your Trust Switch-in products to the Smart Bridge and operate everything - from lighting to electric curtains - with your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the (garden) lights go on at night when you are on holiday and the central heating boiler is switched off when the CO detector detects a carbon monoxide leak.
