Marketing

Extended retailer text	Make all your lights with a plug smart! Control and dim all the lights with a cable remotely with this socket dimmer.
-------------------------------	---

- For wireless dimming of LED lights (3 to 50 watts)
- Also suitable for incandescent and halogen lighting (up to 250 watts)
- 2 dimming modes for optimal dimming performance (phase on/phase off)
- Works with all Trust Switch-in Start Line transmitters
- ON/OFF button on housing
- Safe for children

The ACC-250-LD socket dimmer is designed to make life a little easier. Simply plug the compact socket dimmer into a wall socket, insert your lamp and control and dim your lights from the comfort of your sofa.

The perfect entourage

This socket dimmer is suitable for LED lights up to 50 Watt and light bulbs and halogen lights up to 250 Watt. You can choose between two different dimming modes, which prevents blinking/flickering lights.

Good quality dimmable lights are recommended for correct operation.

Choose the transmitter that fits your living situation.

Pair the socket dimmer with one of the many Trust Switch-in transmitters, such as a remote control, wireless wall switch or dimmer and control your lighting from the couch.

In total you can link up to 32 transmitters to the socket dimmer, so you can control your lamps from several places in the house.

Endless possibilities

Looking for even more possibilities? Connect the compact dimmer switch to the free Trust Switch-in app (using the Smart Bridge) and control, manage and automate your plug-in dimmer and other devices with your smartphone. Wherever you are in the world, you always have the remote control of the dimmer in your pocket!

Smart and safe design

Thanks to the child protection, the switch can be safely used in a home where children are present.

You can also operate this socket switch manually: switch lamps on and off by pressing the ON/OFF button on the housing.

Thanks to the 30-metre indoor wireless range, the switch can be used anywhere in the house. Enjoy the comfort of wireless dimming!

From smart solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home. Link all your Trust Switch-in products to the Bridge and operate everything - from lighting to electric curtains - with your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the lights go on at night when you're on holiday and the boiler is switched off when the CO detector detects a carbon monoxide leak.

Specifications

Total weight	60 g
Height of main product (in mm)	53 mm
Width of main product (in mm)	53 mm
Depth of main product (in mm)	58,4 mm
Controls	on/off
Indicators	Power on/off
Input frequency of main device	50 Hz
Input voltage of main device	240 V
Standby power	1 W
Max number of transmitters supported	32
Dimming modulation	leading-edge trailing-edge
Wireless range	70 m
Code system	Automatic
Start Line Product type	receiver
Power plug type	EU
Power source	wall socket
Max power per supported lamp/device type	20-250W incandescent load, Dimmable ESL/LED 3-50W
Output voltage	230

Power output Yes

Total max output power (W) 250 Watt
