Extended retailer text

Compact key ring remote control for remote operation of lights and devices. Ideal to quickly switch on your (garden) lights when you get home in the evening or even to open your garage door or garden gate before you get out of the car.

- Fits effortlessly in your pocket, so ideal to take with you
- One button for quick control of one or more lamps/appliances
- Attaches to a keychain cord
- Works with all Start Line receivers
- Wireless range of up to 30 metres

Compact design

The compact ACCT-510 keychain remote control is easy to take with you wherever you go. With this small device you can operate one or more Trust Switch-in receivers, such as your lighting, blinds or garage door switch. With one push on the button you switch on the garden lighting or open the garage door when you come home late at night.

Ideal for homecomers

How convenient would it be to be able to open your garage door or garden gate and/or switch on the lighting in the garden and corridor with one push of a button? By combining the key fob with one or more Trust Switch-in receivers, you make this possible.

The ACCT-510 can be combined with all Start-line receivers, but there are a number of commonly used combinations:

Remotely operate a garage door or garden gate

Electric garage doors and garden gates can - depending on the type of motor - be fitted with the ASUN-500 sun blind switch or the AMU-500 universal switch. When you come home (by car), you open them with the key remote.

Switching the (garden) lighting on or off

Mounted lighting can be made smart by using a build-in switch (ACM-2300) or dimmer (ACM-250).

For lamps and devices with a plug, you can use a socket switch or dimmer, for example the indoor socket ACC-2300 or outdoor socket AGC-3500.

You can also link the remote control to several receivers at the same time and thus open the garage and switch on the lights with one touch.

Wireless control

Despite its compact size, this key ring has a long battery life and an indicator light that shows when the battery is low. Thanks to the transmission range of 30 metres, this is the compact solution for in and around your home!

From smart solutions to a Smart Home

With the Smart Bridge you lay the foundation for your smart home. Link all your Trust Switch-in products to the Bridge and operate everything - from lighting to electric curtains - with your smartphone or tablet. Or set your

own timers, rules and scenes to fully automate your system. For example, the lights go on at night when you're on holiday and the boiler is switched off when the CO detector detects a carbon monoxide leak.

Specifications

Total weight	20 g
Weight of main unit	20 g
Height of main product (in mm)	53 mm
Width of main product (in mm)	37 mm
Controller type	remote
Controls	on/off
Indicators	Power on/off
LCD display	No
Input voltage of main device	3 V
Number of control channels	1
Wireless range	30 m
Code system	Automatic
Start Line Product type	transmitter
Batteries included	Yes
Battery life (months)	36 month
Number of batteries	1

Rechargeable battery No

Wireless transmission power (dBm) 2 dBm

Power source battery

Power output No

Power adapter included No
