Marketing

Extended retailer text	Want to dim your garden lighting remotely, without having to leave the house? With this waterproof socket dimmer you can switch and dim all your garden lights from a plug-in location all year round.
	Combine the dimmer with a remote control or wireless outdoor wall switch. Ideal if you want to stay in your chair

on a warm summer evening or if you prefer to stay inside to control the Christmas lights.

- New design: very compact plug-in dimmer
- Transmission range of more than 50 metres
- For all dimmable garden lights with a plug
- Can be connected to various transmitters: remote control, wireless wall switch or even with the Trust Switch-in app (in combination with the Smart Bridge)
- IP44: Suitable for outdoor use
- Max. 200W (halogen) and 50W (led)
- Phase on and phase off for all dimmable LED types

The splashproof socket dimmer by Trust Switch-in is suitable for every socket in the garden or on the balcony. Combine the dimmer with a transmitter of your choice, for example a remote control or a wireless wall switch, and you are ready to control and dim your lights from a distance.

The socket dimmer is suitable for all dimmable outdoor lighting with a plug and can be loaded to a maximum of 200W (halogen) and 50W (LED).

Compact design
At only 8.0 x 5.1 x 6.0 cm, the plug dimmer is small without compromising on quality. The plug has a cover that closes the plug when not in use.

From smart solutions to a Smart Home
With the Smart Bridge, you lay the foundation for your smart home. Link all your Trust Switch-in products to the Bridge and operate everything - from lighting to electric curtains - using your smartphone or tablet. Or set your own timers, rules and scenes to fully automate your system. For example, the lights go on at night when you're on holiday and the boiler is switched off when the CO detector detects a carbon monoxide leak.

Specifications

Total weight	155 g
Weight of main unit	80 g
