Stage your game

This cam is capable of fluid video streaming at 30fps and records stereo sound. This makes it ideal for video chats and online streaming using Twitch, OBS Studio, YouTube or any other podium of your choice. Record everything you have to share and gather fans! Easily connect the cam with the 2m USB cable and you're ready to stream. The Xper streaming cam features a convenient built-in stereo microphone which makes this webcam ideal for video chats. The included monitor clamp and tripod stand makes sure you can position yourself perfectly for the best image possible. You can put the webcam on top of your laptop screen or simply place the webcam on a flat surface for stable and secure video imaging.

Balanced act

The automatic white balance ensures clear video in any light condition. So, whether you are making gaming videos in the middle of the night or make-up tutorials in the middle of the day, you will always be ensured of perfect lighting. The manually adjustable focus allows you to stream sharp images up to a 10m range. In this way, you have all the picture-perfect freedom you need.

Privacy mode

You can turn the Xper streaming cam into privacy mode when you are not using it. In this way, you control when the camera is active by turning on or off the privacy mode of this webcam. You are now protected from unwanted viewers.
