**#23063**

flexible RGB mousepad

Flexible soft mousepad with RGB LED Illuminated edges

Key features

- Flexible design with comfortable fabric surface
- RGB LED illuminated edges
- Large surface design (350x260x4 mm)
- Optimized for all sensitivity settings and sensors
- LED colors adjustable without software
- Non-slip rubber base

What's in the box

- Mouse pad
- User guide
- Gaming sticker

System requirements

- PC / Laptop
- USB port

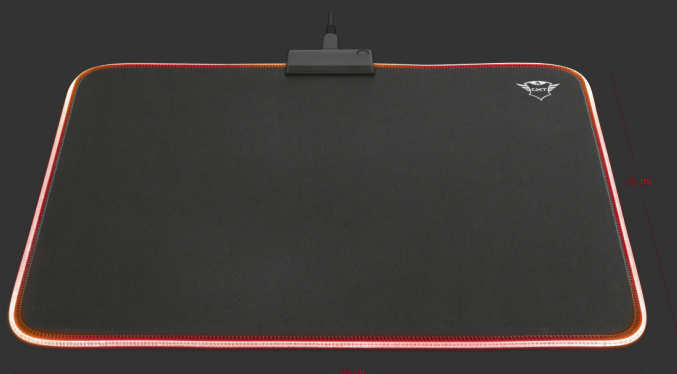

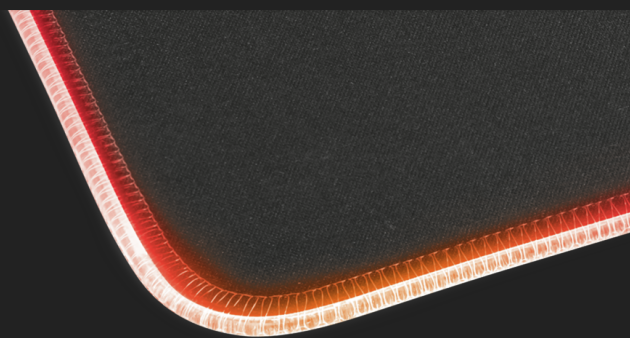

Light it up

The Glide's edges feature built-in RGB LED lighting which can be tuned to fit your gaming gear. Simply control the lighting without installing any software and select either the white, blue, yellow, red, green, cyan or purple colour mode or let all the colours breathe through your mousepad – all by pushing a single button.

Pixel precise tracking

The optimized surface is the basis for every mouse movement, no matter how small, it is perfectly translated into cursor movement regardless of which gaming mouse, sensor or sensitivity setting you're using. And because of its flexible base layer, you can easily slip this mousepad into your bag and shine on every LAN-party or major tournament.

All the space you need

The large 350 x 260mm surface area provides all the space you need for a sweeping victory. The non-slip rubber base keeps the mousepad in place even in the most challenging battles, allowing you to focus on your game instead of your gear. Simply connect the 1.5m braided USB cable and you can start gaming!

GENERAL

Surface	Soft	Shape	Rectangle
