### Build-in switch

Build-in switch to control lights/devices wirelessly, or with your existing wall switch(es)

### Key features

- Wirelessly control any light/device up to 2300 Watt
- Compact design: can be easily installed in a ceiling or junction box
- Works with Trust Smart Home Start Line remote controls, wall switches, sensors or ICS-2000 (App)
- Saves energy: lights/devices are switched off automatically after 1m, 10m, 1h, 4h
- Connect up to 2 existing wall switches, for example at the top and bottom of a stairwell
- Existing wall switches remain operational

### What's in the box

- Build-in switch
- Manual

### System requirements

- Trust Smart Home transmitter (Start line)
