HISTORY

EXPERIENCE COMES WITH AGE

KlikAanKlikUit is a Dutch company that was founded in 1995 with its main objective to maximize home comfort.

This formula was an instant success and KlikAanKlikUit quickly became a market-leader in affordable domotics in the Netherlands. In 2006 KlikAanKlikUit merged with Trust International which accelerated the development and growth of the company very rapidly. Together these 2 companies developed a winning concept with the following pillars:

- **Affordable**
- **Easy to comprehend and install**
- **Fitted to someone's specific situation by offering a broad assortment of possibilities**

Even the demanding installation market very often uses KlikAanKlikUit, since professional installers indicate the products are smart and of good quality.

In the Netherlands KlikAanKlikUit is currently being sold at:

- Every DIY-store (for example, Gamma, Karwei, Praxis, Hornbach, Bauhaus, Hubo, Multimate, Formido, etc.)
- Nearly every electrical wholesaler in the Netherlands (With partners such as Sonepar, Rexel, Solar, YESSS, Fegime)

To introduce this concept throughout the world, Trust International and KlikAanKlikUit introduced the concept under the Trust Smart Home brand in 2015.

Based on our in-house development, over 20 years of experience, dedicated sales team and product assortment we are your trusted home automation partner of today and tomorrow.

SALES SUPPORT

CUSTOMER-ORIENTED

To also show this in stores, we have created a packaging style that easily explains our concept and possible product combinations.

Together with clear POS materials we are able to create an optimized store presentation based on your specific dimensions.

Last, by offering sales training to store personnel, your employees can fully focus on (up)selling our assortment. To increase upsell even more we add a product overview in every package to inform the consumer how they can further improve their home comfort and thus will go back to your store for additional products.

PACKAGE CONCEPT

CREATE YOUR OWN WIRELESS SYSTEM

The concept consists of transmitters and receivers to control lights and devices wirelessly. First of all, consumers need to know what they want to control. They can select the desired receiver based on that decision. The third and final step is to choose a transmitter to control the selected receiver. To highlight this 3-step process, we have created special communication related to our packaging:

The green color is used for a transmitter, blue for a receiver and the orange color is used for a set (which is a combination of a transmitter and one or more receivers). The whole concept consists of this color system.

On the left side of the package, you can find a blue, green or orange box. This is an explanation of the possible combinations with the product. The blue, green or orange color links to the receivers (blue), transmitters (green) or sets (orange).

The Trust Smart Home alert products all come in a solid red package. You can buy the whole set and expand from there or pick just one sensor and the sirene. Combined with the Octopus Control Station you can use your smartphone to keep an eye on your home wherever you are.

COMPLETE SYSTEM

CREATE YOUR OWN SMART HOME

TRANSMITTERS

ALWAYS IN CONTROL

For wireless control, you need at least one transmitter and one receiver. Transmitters are recognized by their green package.

REMOTE CONTROL
TRANSMITTER AYCT-102

- 71001 Remote control for wireless control of one or multiple lights/devices
- Control up to 16 lights/devices independently
- Control multiple lights/devices with one button
- Long battery life (battery included)
- Transmission range up to 30 meters

KEYCHAIN REMOTE CONTROL
TRANSMITTER AKCT-510

- 71076 Keychain remote control for wireless control of one or more lights/devices
- Control one or more lights/devices with one button
- Long battery life (battery included)
- Transmission range up to 30 meters

TIMER REMOTE CONTROL
TRANSMITTER ATMT-502

- 71090 Timer remote control to control lights/devices both manually and automatically
- Control up to 16 lights/devices independently
- Create up to 12 timers to switch lights/devices automatically
- Set up a random timer to switch lights/devices randomly between specified times to pretend you are home
- Control multiple lights/devices with one button
- Long battery life (battery included)

REMOTE CONTROL
TRANSMITTER AYCT-202

- 71164 Wall-mount remote control for wireless control of one or multiple lights/devices
- Control up to 4 lights/devices independently, or as a group
- Control multiple channels with the group channel
- Convenient dimming with dim up/down buttons
- Magnetic wall mount to hold the remote for easy mounting to a surface
- Transmission range up to 30 meters

SINGLE WALL SWITCH
TRANSMITTER AWST-8800

- 71075 Wireless single wall switch for wireless control of one or multiple lights/devices
- Can easily be placed anywhere indoor with included double sided tape and/or screws
- Saves energy: lights/devices can be switched off automatically after 5 or 30 seconds, 2, 10 or 30 minutes or 1 or 3 hours
- Long battery life (battery included)
- Transmission range up to 30 meters

DOUBLE WALL SWITCH
TRANSMITTER AWST-8802

- 71012 Wireless double wall switch for wireless control of one or multiple lights/devices
- Can easily be placed anywhere indoor with included double sided tape and/or screws
- Long life battery (battery included)
- Transmission range up to 30 meters

MAGNET CONTACT
TRANSMITTER AMST-606

- 71018 Wireless contact sensor to automatically switch lights and devices when a door or window is opened/closed
- Can easily be placed anywhere indoor with included double sided tape and/or screws
- Long battery life (battery included)
- Transmission range up to 30 meters
- Saves energy: lights/devices are switched off automatically after 2, 4, 6, 8, 10, 15 or 20 minutes
- Can be combined with a wireless doorbell so you can hear when a door/window is opened

OUTDOOR WALL SWITCH
TRANSMITTER AGST-8800

- 71151 Wireless outdoor wall switch to wirelessly control your lights/devices
- Can easily be placed anywhere outdoor with included screws
- Rugged, waterproof design. (IP44)
- Long battery life (battery included)
- Transmission range up to 30 meters

DOUBLE OUTDOOR WALL SWITCH
TRANSMITTER AGST-8802

- 71152 Double wireless outdoor wall switch to wirelessly control two or more lights/devices
- Can easily be placed anywhere outdoor with included screws
- Rugged, waterproof design. (IP44)
- Long battery life (battery included)
- Transmission range up to 30 meters

TRANSMITTERS

KEEP MOVING

WIRELESS MOTION SENSOR TRANSMITTER AWST-6000

- 71013
- Wireless indoor motion sensor to automatically switch lights/ devices on/off
- Can easily be placed anywhere indoor with included double sided tape and/or screws
- Long life battery (battery not included)
- Transmission range up to 30 meters
- Saves energy: lights/devices are switched off automatically after 5 seconds or 1, 5 or 10 minutes
- Can be combined with a wireless doorbell so you can hear when motion is detected

WIRELESS MOTION SENSOR TRANSMITTER APIR-2150

- 71091
- Wireless outdoor motion sensor to automatically switch lights/ devices when motion is detected
- Can easily be placed anywhere outdoor with included double sided tape and/or screws
- Long battery life (battery not included)
- Transmission range up to 30 meters
- Saves energy, since lights/devices are switched off automatically after 5 seconds or 1, 5 or 10 minutes
- IP44 waterproof

DUSK/DAWN SENSOR TRANSMITTER ABST-604

- 71034
- Wireless dusk/dawn sensor to automatically switch lights/ devices when sun sets or rises
- Can be placed anywhere indoor and outdoor
- Lights and devices can be switched off automatically after 2 to 8 hours or when it gets light again
- Long battery life (battery not included)
- Transmission range up to 30 meters

MINI BUILD-IN TRANSMITTER TRANSMITTER AWMT-230

- 71048
- Mini build-in transmitter allowing you to wirelessly switch additional lights/devices when the existing wall switch is used
- Can easily be installed behind an existing single/double wall switch
- Switches additional lights along with the original lights
- Long battery life (battery included)
- Transmission range up to 30 meters

MINI BUILD-IN TRANSMITTER TRANSMITTER AWMT-003

- 71079
- Mini build-in transmitter allowing you to wirelessly switch lights/devices with your desired designer wall switch
- Can easily be installed behind an existing single/double light switch
- Allows you to use your own design wall switch
- Long battery life (battery included)
- Transmission range up to 30 meters

WIRELESS SIGNAL REPEATER TRANSMITTER AEX-701

- 71029
- Extends transmitter's wireless transmission range up to 30 meters
- Can be placed anywhere indoor and outdoor
- Can extend the range of up to 6 transmission codes
- Long battery life (battery not included)

Place it easily anywhere
indoor

Lights switches automatically on
when walking the stairs

RECEIVERS

FOLLOWING YOUR INSTRUCTIONS

For wireless control, you need at least one transmitter and one receiver. Receivers are recognized by their blue package.

INDOOR SOCKET SWITCH

RECEIVER AC-1000

- 71002
- Indoor mains socket switch for wireless switching of lights/ devices (max. 1000 Watt)
- Can be placed in any indoor socket
- Works with all lights/devices up to 1000 Watt
- Child protection

INDOOR SOCKET SWITCH

RECEIVER AC-3500

- 71008
- Indoor mains socket switch for wireless switching of lights/ devices (max. 3500 Watt)
- Can be placed in any indoor socket
- Works with all lights/devices up to 3500 Watt
- Child protection

INDOOR SOCKET DIMMER

RECEIVER AC-200

- 71092
- Indoor mains socket dimmer for wireless dimming of all kinds of dimmable lights (max. 200 Watt) and dimmable ESL/LED (max. 24 Watt)
- Can be placed in any indoor socket
- Suitable for dimming all kinds of dimmable lights (max. 200 Watt) and dimmable ESL/LED (max. 24 Watt)
- Child protection

INDOOR SOCKET DIMMER

RECEIVER AC-300

- 71005
- Indoor mains socket dimmer for wireless dimming of incandescent and halogen lights (max. 300 Watt)
- Can be placed in any indoor socket
- Works with incandescent and halogen lights up to 300 Watt
- Child protection

OUTDOOR SOCKET SWITCH

RECEIVER AGDR-3500

- 71039
- Outdoor mains socket switch for wireless switching of lights/devices (max. 3500 Watt)
- Can be placed in any outdoor socket
- Works with all lights/devices up to 3500 Watt
- IP44 Splash proof
- Child protection

OUTDOOR SOCKET DIMMER

RECEIVER AGDR-200

- 71108
- Outdoor mains socket dimmer for wireless dimming of all dimmable lights (max. 200 Watt) and dimmable ESL/LED (max. 24 Watt)
- Can be placed in any outdoor socket
- Suitable for dimming all kinds of dimmable lights (max. 200 Watt) and dimmable ESL/LED (max. 24 Watt)
- IP44 Splash proof
- Child protection

*All indoor plugs are also available as:

DIMMABLE LED BULB RECEIVER ALED-2709

- 71144
- Wireless dimmable LED Bulb which can be directly controlled wirelessly with any Trust Smart Home remote control, wireless wall switch, etc.
- Save money with this energy efficient lamp with energy rating of A+
- Warm light colour for a pleasant mood in your home
- Wide dimming range from 10 to 100%
- Can also be controlled with smartphone/tablet, using any Trust Smart Home control station
- Can easily be placed into any E27 light fixture
- *No control station required

DIMMABLE LED SPOT RECEIVER ALED-MR2705

- 71154
- Wireless dimmable LED spot which can be directly controlled with any Trust Smart Home transmitter
- Control this LED spot wirelessly with all Trust Smart Home wireless wall switches, remote controls, etc.: no additional equipment needed
- Save money with this energy efficient spot with an Energy rating of A+
- Warm light colour (2700k), suited as accent lighting for example, the living room.
- Wide dimming range from 10 to 100%
- Easy to install: place the spot in an existing MR-16 (GU5.3) light fixture
- Also possible to control with your tablet and smartphone by using a Trust Smart Home control station
- Light intensity of 350 lumen (5 Watt power equals 35 Watt traditional spot)
- Cost effective solution: no additional dimmer required

DIMMABLE LED SPOT RECEIVER ALED-G2706

- 71153
- Wireless dimmable LED spot which can be directly controlled with any Trust Smart Home transmitter
- Control this LED spot wirelessly with all Trust Smart Home wireless wall switches, remote controls, etc.: no additional equipment needed
- Save money with this energy efficient spot with an Energy rating of A+
- Warm light colour (2700k), suited as accent lighting for example, the living room.
- Wide dimming range from 10 to 100%
- Easy to install: place the spot in an existing GU-10 light fixture
- Also possible to control with your tablet and smartphone by using a Trust Smart Home control station
- Light intensity of 350 lumen (6 Watt power equals 50 Watt traditional spot)
- Cost effective solution: no additional dimmer required

BUILD-IN SWITCH RECEIVER ACM-2300H

- 71147
- Build-in switch to control lights/devices wirelessly with a Trust Smart Home transmitter, but also possible to control with your existing wall switch(es) (max. 2300 Watt)
- Can be used to control lights/devices connected to an existing wall switch(es)
- Also supports 2 existing wall switches, like at the top/bottom of a stairwell
- Works with all lights/devices up to 2300 Watt

BUILD-IN SWITCH RECEIVER ACM-3000H2

- 71148
- Built-in switch to control 2 lights/devices wirelessly with a Trust Smart Home transmitter, but also possible to control with your existing wall switch(es) (max. 3000 Watt)
- Can be used to control lights/devices connected to an existing wall switch(es)
- Also supports 2 existing wall switches, like at the top/bottom of a stairwell
- Works with all lights/devices up to 3000 Watt

- 71051
- Splash proof junction box for easy outdoor installation of ACM-100, ACM-300, ACM-1000 or ASUN-650
- Can be placed anywhere outdoors
- Easy connection for earth wire
- IP44 Splash proof

SPLASHPROOF JUNCTION BOX
RECEIVER OWH-002

- 71050
- Splash proof junction box for easy outdoor installation of ACM-3500-3
- Can be placed anywhere outdoors
- Easy connection for earth wire
- IP44 Splash proof

SPLASHPROOF JUNCTION BOX
RECEIVER OWH-003

- 71111
- Splash proof outdoor housing for easy outdoor installation of AWST-8800 or AWST-8802
- Can be placed anywhere outdoors
- Easy to install with included screws
- Firm construction
- IP44 Splash proof

WIRELESS DOORBELL CHIME
RECEIVER ACDB-7000C

- 71087
- Wireless doorbell chime with 5 different melodies, 4 volume levels and LED indicator
- Can easily be placed in any indoor socket
- Possible to assign different melodies to different transmitters
- Led indicator that clearly indicates when the doorbell is activated

WIRELESS DOORBELL CHIME
RECEIVER ACDB-6600C

- 71081
- Portable wireless doorbell chime with 5 different melodies, 4 volume levels and LED indicator
- Can easily be taken with you, even to the garden
- Possible to assign different melodies to different transmitters
- Led indicator that clearly indicates when the doorbell is activated
- Long battery life (battery not included)

SCREEN SWITCH
RECEIVER ASUN-650

- 71017
- Switch for wireless control of electric shutters, screens, sun blinds, curtains etc.
- Works with all electric motors up to 500 Watt
- Can be used for wireless control of shutters, screens, sun blinds, curtains etc.
